

## List of materials:

Robot Tank - Hiwonder Track Chassis/ Suspension Shock Absorption Full-Metal Tank Robot Encoder Motor/ Smart Car Chassis

Hiwonder 4 Wheel Motor Driver Board I

Remote controller - AFHDS Automatic Frequency Hopping Digital System 2A - FS i6 with receiver

Arduino Uno R4 wifi

Arduino MKR NB 1500

USB-C to USB-A cable

Radio Receiver - receptor Skydroid 5.8GHz dual receiver

Smartphone

GPS Module (not used)

FPV Camera 5.8GHz

3D printed camera support

Laptop Computer

Copper wire Cables

Breadboard

M3 and M4 Screws and respectives bolts

2 x 4.7 KOhm resistors

11.1 V battery

US to EU plug adapter

## Circuit Diagram:
